

## Jackson & Felton Mills Bridges Bike Loop

Miles:36 Rating: Very Difficult

This is the most challenging and most rewarding ride. There are two very different bridges. Jackson Mills Bridge is the prettiest bridge in Bedford, while the Fenton Mills Bridge is the most original; retaining even the hand painted advertising inside it. It's on private property, however the owner is friendly and willing to tell you about its history. There are several steep hills but much of the ride is on rolling countryside. On a clear day the views are spectacular. Most of the roads are very lightly trafficked. The ride starts and ends at Grouseland where you can park, picnic, swim or shower for free.

[Grouseland Tours](#) is 30 miles from Bedford, take Rt. 30 to Everett, take business Rt. 30 to the second light and follow Rt. 26 south to Clearville, continue straight to Big Creek Road and follow the signs to Grouseland.
